

Value proposition for the CBC

CBC Chair Kimi Makwetu

CBC Vice Chair Magnus Lindell

The CBC is the INTOSAI advocate for, and custodian of, SAI capacity development.

We facilitate initiatives in support of SAIs and regions, building their capacities and enhancing their capabilities.

The CBC will add value to the capacity-
building sphere of INTOSAI by:

...strategically and constructively

challenging

*current structures, priorities,
programmes and activities*

partnering

with those already in the capacity building game, encouraging capacity-building providers and practitioners to focus on their areas of strength, enabling a greater impact of their efforts...

*...championing closer
cooperation
between the CBC, PSC and KSC in the
interest of capacity building and the
efficient use of INTOSAI resources*

*...facilitating a greater capacity-building
role for the*

INTOSAI regions

*from both a participation and
accountability angle...*

...supporting capacity building through
knowledge sharing
*by championing communities of
practice, supporting inter- and cross
regional knowledge sharing and
encouraging coordinated audits etc.*

*...supporting
verification
of capacity building efforts in the form
of peer and/or self-assessments, using
ISSAI 5600, SAI PMF, or other forms of
external evaluations; and*

*...exploring opportunities, and
encourage initiatives, for*

***certification and
accreditation***

*of auditors in coordination with the
Finance and Administration Committee
and other stakeholders*
